

Heliophysics Subcommittee Comments on the Science Plan

- With regard to Heliophysics Science interests, the SMD Science Plan appears to be a well written and complete report.
- The Heliophysics Science representation overall reflects the community roadmap activity well and is considered to be a comprehensive plan for Heliophysics Science.
- No major inconsistencies or redundancies were found between Heliophysics section and the other portions of the plan.
- Table 2.2c was discussed in depth, mission priorities are acceptable.
- No major problems were identified ... some suggestions from the committee will be forthcoming on
 - Section 8: Science Enabling and Enabled by Human Exploration
 - Section 1: Highlights of recent accomplishments
